

***A special day at Bharti library with Dr Rukmini Banerji***

**A success story :**

*Vidhi, is just 7 years of age and is studying in IV<sup>th</sup> standard. Her father runs a home based flour mill. When she joined Bharti Library at Veena Vadini Pvt. School, Jaipur, she could not read properly, math was a problem for her and she was a shy child. She became a member of Bharti library in April 2006. Since then, she has made a remarkable improvement. She has read close to 60 books (highest number in her age group) and her math skills are also much better now. She has gained confidence and participates in all the activities taken up in her library. Like her, there are many children who have gained immensely from this library programme.*

*And the icing on the cake is that, in the month of June, the library has created a record in itself!*

***Bharti Library at Veena Vadini Pvt. School, has achieved a landmark figure, with the number of members reaching up to 350 in just two and a half months.***

***All the other three libraries are also, catching up fast.***

*We, hope that in future also, all the Bharti libraries, here at Jaipur, keep benefiting the children and their parents as well, in the same manner. And more and more children join this movement and gain from it!*
